XC-150/XC-152/XC-153 Series

FEATURES

Value Counting

While counting mixed notes, XC-153 detects all denominations by using IR, Color sensors. It provides the total count and value plus individual counts and values.

In single denomination mode, after checking the first banknote any other denomination mixed is automatically detected. (XC-152)

High Security

A combination of various sensors provides fast and highly accurate detection for counterfeits. UV - checks note paper authenticity and the properties of ink.

MR(MT) - examines patterns and properties of magnetic ink and the presence of a MT.

IR - analyzes wave length of transmitted and reflected ray.

Size Detection

An advanced size detection system provides a rigorous check for different types of denominations in a bundle.

IR - discriminates banknotes of different lengths.

Color- discriminates banknotes of different colors.(XC-152/153)

Interface

To connect with PC and Printer via RS232C.

SPECIFICATIONS

Counting speeds	Counting 1,000/1,200/1,500 notes/min Detection 1,000 notes/min Serial no. 400 notes/min
Note size range	100mm x 50mm ~ 185mm x 100mm
Hopper capacity	300 notes
Stacker capacity	200 notes
Dimensions	260(W) x 235(D) x 220(H)mm
Weight	5.5kg
Power source	Free voltage(AC86V-264V, 50/60Hz)
Power consumption	40W
Interface	RS-232C
